PROFESSIONAL SUMMARY

QA Engineer with 3+ years of experience testing digital banking, payments, and cash management applications. Skilled in test case design and execution across frontend, backend, SIT, UAT, regression, API, and release verification. Primary tester for Bank Raya's Greenbanking feature, with 200+ test cases executed across Bank Raya projects. Creates Playwright and Maestro learning projects with AI assistance and verifies the resulting tests.

WORK EXPERIENCE

Quality Assurance Engineer | Jan 2026–Present
PT Indocyber Global Teknologi (IGLO) — Assigned to PT Bank Raya Indonesia Tbk

- Served as primary tester for Greenbanking: designed and executed 50+ test cases, validated frontend and backend behavior, presented UAT results to the squad and product teams, and verified deployment changes.
- Identified an API error handling gap in the report screen; verified the released improvement that shows an error state and retries loading the report through a Try Again action.
- Executed 200+ test cases across Bank Raya projects, including SIT for Data Update Reminders with conditional forced update or push notification flows, and MVO frontend improvements for first-time customer actions.
- Checked endpoints with Bruno and Postman, validated data in PostgreSQL/MySQL through DBeaver, cleared API cache with a Redis client, and ran locally executed pytest checks prepared with AI assistance and personally reviewed.

Quality Assurance Tester | Sep 2025–Jan 2026
PT Adi Data Informatika — Assigned to PT Bank Mandiri (Persero) Tbk

- Tested Kopra by Mandiri web and mobile flows for intrabank and interbank transfers, batch uploads, bill payments, and payroll through SIT, UAT, regression, and release testing.
- Found duplicate records accepted by batch upload validation; retested the fix and confirmed the system response and exported data matched expectations.
- Executed approximately 30 passing test cases per day and documented test results and defects in Jira.

IT Manual Tester | Sep 2023–Sep 2025
PT Danamas Insan Kreasi Andalan (DIKA) — Assigned to PT Bank Central Asia Tbk

- Executed test cases and logged defects in TeMan across Merchant BCA, EDC/APOS, Magenta, Elastics, OASE, ACCO, and ATM simulator projects.
- Tested debit, credit, QRIS, refund, and installment transactions on EDC/APOS; reconciled amounts, statuses, and transaction references in AS400, IDS, and BDS backend systems.
- Tested payments for APOS-generated QRIS codes using BCA QRIS and other payment apps, then validated transaction outcomes in backend systems.
- Validated EDC/APOS requests and damage reports in Merchant BCA, ATM inventory and technician/vendor assignments in OASE, and terminal integrations and vendor inventory in Elastics.
- Tested ACCO UI wording and normal application flows; used an ATM simulator for transfers and checks of exchange-rate updates and decimal display.

IT Technical Support | Jan 2022–Sep 2023
Central Jakarta Communication, Informatics and Statistics Sub-Department

- Maintained and troubleshot networks in a rotating team supporting Central Jakarta's 8 districts and 44 sub-districts.
- Explored routing, VLAN, and firewall settings on Cisco Catalyst and MikroTik devices and implemented selected changes; ran Zabbix in Docker and managed it through Portainer.

PERSONAL PROJECTS

Playwright Academy and Playground | Oct 2026–Present
playwright.aminhamzah.com | playground.aminhamzah.com

- Designed and maintains 17 Indonesian-language Playwright modules with Python/TypeScript examples; ran and verified AI-assisted code examples created with Claude Code.
- Designed TokoQA, KlinikQA, and PerpusQA as UI/API practice applications; manages deployment through Cloudflare Pages and Workers.

Maestro Academy | Oct 2026–Present
maestro.aminhamzah.com

- Designed 12 Android UI testing modules and the Laundry Kiloan practice app; created the UI design in pen.dev, directed implementation with Claude Code, and reviewed Maestro test results.

EDUCATION AND CERTIFICATIONS

Esa Unggul University — Bachelor's Degree in Informatics Engineering (S.Kom), 2020 | GPA 3.40/4.00

QA Selenium & Katalon Bootcamp — Test Aplikasi Kamu, 2025 | Manual API Testing and Cypress — Jago QA, 2025

QA Engineer — Digital Skola, 2023 | Alibaba Cloud Certified Associate, 2023

AWS Cloud Architect training — KEMKOMINFO, 2023 | DevOps training — ID-Networkers, 2023

SKILLS

Testing: manual testing, SIT, UAT, regression testing, smoke testing, API testing, test case execution, defect tracking, mobile and web testing

Tools and data: Jira, Confluence, TeMan, Bruno, Postman, pytest (AI-assisted), DBeaver, PostgreSQL, MySQL, Redis, AS400, IDS, BDS, Figma

Automation projects: Playwright, Maestro, Selenium, Katalon, Cypress (personal projects or training)

Languages: Indonesian (native); English (advanced writing/listening, intermediate reading, basic speaking)

ADDITIONAL EXPERIENCE

Volunteer IT Support — Wisma Atlet Kemayoran Covid-19 Emergency Hospital | Dec 2020–Oct 2021: network maintenance, technical support, vaccination data, and certificate issue resolution.

IT Staff Intern — Perum Perhutani | Sep 2019–Jan 2020: technical support and an ERP Adempiere user guide.
